EXECUTION AGAINST A SENATOR IS UNSATISFIED

Sundry Claims Filed in Court by the Bishop Estate—A Woman Sued Under the Wrong Name.

Judge Robinson has signed an interlocutory decree in the Bishop-Cushingham partition case. A one-seventh undivided interest is awarded to each of the following named: Harriet Bally nee Lewis, Charles Lewis, Alexander Lewis, Elizabeth M. Cushingham, James D. Lewis, Margaret B. Grieve and L. L. McCandless. Cecil Brown, trustee, is the mortgagee of the interest owned by James D. Lewis. James Auld is entitled to a life estate in one-third of one-eighth of the lands and premises described in the complaint. Harry Auld and his wife Miriam have no interest in the property. The property sought to be partitioned consists of the following designated pieces: Land at the southeast corner of Bethel and King streets bounded by the post-office premises, Bethel street, King land and containing an area of 6960 square feet. Land in Waikiki road opposite Sunny South. Lots in Kalia, Waikiki, containing respectively 3.5, 2.9 and 5.7 acres, a total of 12.1 acres. As previously reported, W. Austin Whiting is appointed commissioner to report upon what parts of the property may be partitioned by metes and bounds and what may have to be sold for the purposes of dividing it between the parties according to their respective rights.

An execution for \$254 in the divorce suit of S. Kahilina vs. I. H. Kahilina has been returned by Deputy Sheriff Chillingworth unsatisfied, the return being made at the request of Kinney, Ballou & McClanahan, attorneys for plaintiff. Defendant is a member of the Senate for Kauai.

In the suit for partnership accounting of E. C. Rowe vs. Stanley Stephenson, it is stipulated that respondent may have ten days additional from June 20 to answer.

E. A. Mott-Smith, attorney for the Bishop Estate, has filed claims in court as follows: Estate E. C. Macfarlane, deceased, nine months' rent for leasehold at Kalia, Waikiki, Oahu, \$750; six months' rent for bath-house premises, Helemano, Waikiki, \$70; nine months' rent of leasehold at Helemano and taxes, \$1425. Estate J. K. Kaunamano, deceased, seven years' rent of leasehold at Kekela, Waimanu, Hawaii, taxes and interest, \$146.60; principal and interest of note, \$387.20.

Thomas Fitch, attorney for defendant in the suit of James H. Cummings vs. Lousana Noble, files an answer of general denial. Incidentally stating that, instead of the name under which she is sued, the real name of defendant is Susannah Angelina Hunt.

FUTURE SUGAR PRICE LOCAL BUSINESS MAN MAKES HIS PREDICTION

Views Result of Careful Following of Leading Sugar Journals Throughout the World—Possible Action of the Trust.

A business man who has followed the world's sugar conditions very closely made an interesting prediction this morning that seems very feasible to say the least, though the desire may be father to the thought.

The prediction is that in event of Austria following the lead of Germany in wiping out the sugar bounties, the Sugar Trust will withdraw a large portion of its sugars from the market and hold the product till the effect of the reduction in beet sugar plantings is felt and higher prices prevail. This will enable the Trust to make large profits and also hold up prices in the mean time.

This gentleman says he has followed the sugar journals of all countries for many years past. Last year there was a general prediction all along the line that lower prices would prevail. This prediction is fulfilled in the present depression of sugar prices. These same journals are now predicting a general advancement in sugars of all grades. Judging the future by the past the Bulletin's informant is convinced that beet sugar has been reached, and a stronger market may now be reasonably expected.

BOER LEADERS ALL WANTED PEACE

New York, June 9.—A cable to the Sun from Durban, Natal, says: Schalk Burger, former acting President of the Transvaal, in an interview published in the Mercury, says General Joubert died of illness and not of wounds as had been reported. Steyn was in favor of peace, and illness alone prevented him from attending the meeting of the Boer leaders at which the terms concluding hostilities were signed. Schalk Burger said that there had been no correspondence with Kruger concerning the peace negotiations. The Boers admitted the conduct of Kitchener, and visited to the various camps showed that the people are glad that the war is ended.

The Mercury publishes a translation of the circular of the Boer leaders instructing the readers to sign the peace conditions. The document points out that there was no further hope of procuring independence, the country was being devastated and means of subsistence were disappearing. The Boer leaders were also influenced in favor of peace by the distress among the families in the British concentration camps, moreover, the Boers could not retain thousands of prisoners like the enemy. A small number of Boers and overwhelming number of British precluded the hope of victory despite sacrifices.

CIVIL SERVICE ROW

New York, June 8.—The Herald's Washington special says: A sensational severance of the cordial relations existing between President Roosevelt and Senator Hanna is the possible result of charges filed against Federal officeholders in Cleveland, Ohio, by Representative Burton of that district. The President is determined to investigate. Senator Hanna is strongly opposed to such a course. Friends of both say a serious break is threatened.

Should this break come it would be the most spectacular and disastrous breach between the President and the chairman of the National Committee of the ruling party that has occurred since the falling out of President Harrison and Senator Quay, who managed the campaign in which the former was elected.

CABLE BILL KILLED

Washington, June 11.—The House today dispatched the Corliss cable bill by the same method it adopted yesterday in the case of the forest reserve bill. It struck out the enacting clause of the measure by a vote of 116 to 77, thus giving no opportunity to test the strength of the Dabzell substitute, which authorized the President to contract with a private company for the laying of a cable.

THOUSAND MILES FINISHED

London, June 9.—The officials of the Commercial Cable Company have received advices to the effect that 1000 miles of the San Francisco-Honolulu section of the company's Pacific cable, which is being manufactured for them here, have been completed.

BOERS PRAISE THEIR AMERICAN ALLIES

Pretoria, June 10.—Boer commandoes arriving here bring reports of fresh instances of fraternization between the Boers and the British troops. The surrender of a commando at Balmoral, Transvaal, was followed by a big "sing song." The British soldiers stationed at the blockhouse in some distances held up the trains and proffered coffee and tobacco to their late enemies.

The Boers generally hold unfavorable estimates of their foreign allies, except the Americans, whom they declare to be crafty and great fighters. A prominent commandant said: "All the Germans are fit for is to give horses sore backs."

ROOSEVELT THE QUEST

West Point, N. Y., June 11.—The celebration of the 100th anniversary of the West Point Military Academy reached its climax today. President Roosevelt was the chief guest, and there was a brilliant crowd, including many Army and Navy officers, cabinet officers, ladies in bright costumes and handsomely uniformed diplomats.

The day's activities began with the arrival of the President, and then came a review of the cadets, a reception at the home of the superintendent of the Academy, Colonel Mills, the formal exercises and speeches in Memorial Hall after luncheon and the dress parade at sundown. The banquet, with more than 500 guests, was held in the evening.

NEW CUBA SCANDAL FUNDS WERE APPROPRIATED TO SHAPE LEGISLATION

Will Undoubtedly Have Effect on Cuban Reciprocity Situation—Thurber Makes Some Serious Admissions.

Washington, June 11.—The testimony given today before the Committee on Cuban Relations by F. B. Thurber, showing that between \$8000 and \$9000 had been paid out of the Cuban treasury under the direction of Governor General Wood for the promotion of the effort to secure reciprocity between the United States and Cuba, caused a sensation in the Senate today.

The news of Thurber's statement reached the Senate chamber about the time that body had convened and when Senator Teller, whose examination had developed the facts, made his appearance on the floor, he was immediately surrounded by Senators from both sides of the chamber, who professed great anxiety to know all that had occurred. Copies of one voucher produced were eagerly sought, and the demand was not satisfied until forty or fifty copies had been typewritten and circulated in the Senate chamber.

Much interest was also manifested on the part of the members of the House, and some of the best sugar advocates of that body pointed out that Mr. Thurber had not in his testimony before the Ways and Means Committee indicated any connection with the Cuban Government in his effort to create sentiment in this country favorable to concessions to Cuba.

Opinions as to the ultimate effect of the testimony are as varied as the predilections and prejudices of the Senate, but the immediate results are seen in the decision reached during the afternoon to have two caucuses in the early future. The first of these will be held by the best sugar Republican Senators tomorrow and the second by all the Republican Senators Friday or Saturday. Senator Burrows is responsible for the statement that the best sugar men will meet and Senator Aldrich for the announcement that there will be a general conference before the close of the week.

The purpose of the meeting of the best sugar men is to consider the situation as affected by today's developments.

ONE MILLION FOR FIRE CLAIMS

Washington, D. C., June 9. Evening Bulletin, Honolulu, T. H. The Senate Committee on Pacific Islands decided today to propose an amendment to the general deficiency bill to pay one million dollars for fire claims and authorize the Territory to issue bonds for the remainder, payable from future revenues.

ments, and also to receive a report from the committee, consisting of Senators Elkins, Burrows and Jones of Nevada, appointed to confer with the Republican members of the Cuban Committee. This committee will state that the Cuban Committee has declined to consider all the propositions looking to a compromise which have been made, and it probably will ask to be discharged. The propositions that have been made are two—the first for a rebate and the second for a commercial treaty with Cuba. The committee will say that both plans were rejected, and that the members of the Cuban Committee would not change their position that there must be a straight reduction of 20 per cent without any conditions, except that the President might have power to revoke the concession in case he found that the Cuban planters were not getting the benefit of it.

The full conference will be in the nature of a caucus, and some of the best sugar men say they will enter it only with the understanding that they shall not be bound by any conclusion that may be reached. The advocates of a tariff reduction say that no action by a Republican Senatorial caucus is binding, but they add that defections have occurred only in rare instances.

LYNCH IS ARRESTED

London, June 11.—Colonel Arthur Lynch, who fought with the Boers in South Africa and who, in November last, was elected to represent Galway in the House of Commons, was arrested this morning on his arrival at New Haven from Dieppe, France. Colonel Lynch, who was accompanied by his wife, was brought to London and was afterward taken to the Bow street police station.

Dr. Charles F. Rand, who is accepted as being the first volunteer for the Civil War, is still living in Washington, D. C. He was also the first soldier to win the Congressional medal of honor for distinguished gallantry in action.

STOPPED NINE SHOT FISHES THAT FISH AND WALK AND FLY

CASE OF BEN HAAHEO IN POLICE COURT TODAY Defendant Committed to Circuit Court For Trial—Damaging Testimony of Mrs. Becky Houghtailing.

Ben Haaheo, the native who was arrested on Saturday night last on the charge of assault with a deadly weapon on Mrs. Becky Houghtailing, appeared in the Police Court today. He was defended by Attorney J. L. Kaulikou, while the side of the prosecution was represented by Attorney Gill.

The first witness on the stand was Mrs. Houghtailing herself, who told the story of the trouble of Saturday night. She stated that she had gone home to her house in Kalihi and that upon her arrival there she was greeted by Haaheo, who took a package of beer she had with her, threw it on the ground and broke it to pieces.

This having been done, the two went into the house, where Haaheo took \$20 from her, which she supposed he wanted for gambling purposes. At any rate, she never saw the money again.

Upon sitting down at the table for supper, Haaheo picked up a plate of fish and hit her on the head with it. She called him a lazy brute or something of the kind, and she supposed he did not like being addressed in such a way.

Even the assault with the broom was not enough, and Haaheo procured a broom handle for use on her person. Then he said he intended to kill her and started after his shotgun.

She ran down the steps and out into the back yard, and upon turning around to see if Haaheo was behind her, she saw the man standing on the porch upstairs with a gun in his hands. At the same moment, the weapon was discharged and she was struck by nine shots.

Witness stated positively that she saw the gun pointed at her and that the threats by Haaheo were made in the presence of others.

The prosecution put on two men who saw the trouble and their testimony was substantially the same as that offered by the first witness. They heard the threats and one of them saw the gun pointed at Mrs. Houghtailing.

Attorney Kaulikou, in the course of the proceedings and when the gun was being introduced as evidence, stated that there was no evidence to the effect that the weapon had been pointed at the plaintiff. Judge Wilcox replied that Becky herself had testified that she had stopped nine of the shots.

Mr. Kaulikou further stated that there was no evidence that the gun was a deadly weapon. Judge Wilcox smiled and said there was no need of any expert testimony to prove to his mind whether or no the gun was a dangerous weapon.

The testimony was wholly against the defendant and he was committed to the Circuit Court for trial, his bail being fixed at \$500.

Albatross Returns From a Very Successful Cruise.

SAW NOTHING OF THE ABANDONED SHIP KERR Fish Commission Boat May Go Out Again Tomorrow—Valuable and Curious Specimens Obtained.

After a very successful cruise around the island of Kauai the United States Fish Commission steamship Albatross, Captain Thomas, returned to her berth at the Navy wharf in this harbor about 11 o'clock this morning. She will remain in port but a day or two, however. She may start out again tomorrow on another cruise.

The Albatross was gone a little over a week. All aboard, scientists, officers and crew, were busy all the time, for the nets were constantly in commission and the deep was made to give up many curious and valuable specimens of living things. Surface nets, intermediate nets and nets constructed to scour the bottom were used every day except Sunday.

Captain Thomas and all his officers are enthusiastic in their praise of the Garden Isle, thinking it one of the most beautiful of this group. The weather during the trip was most pleasant and nothing of a nature calculated to mar the pleasure of the enterprise occurred.

The Albatross did not enter any of the ports of Kauai, although some of her people went ashore at Waimea, Makalei and other ports.

Two of the boats of the abandoned British ship Fannie Kerr were seen at Waimea, but nothing was seen or heard of the Fannie Kerr herself. The Albatross was not far away from Kauai at any time and it was not likely that she would see anything of the burning ship.

In the laboratory of the Albatross numerous jars and bottles containing many wonderful little creatures of the ocean show how successful the cruise of the vessel has been.

A large quantity of specimens of surface life has been collected and the scientists of the Albatross have secured countless numbers of the young of many varieties of fish.

Two or three jars of "surface soup" are among the most interesting things. This "soup" was taken from the water by the very fine surface nets. It has something of a jelly appearance. This surface life is to be found all over the ocean. It is the food of fishes and would not be at all bad eating for humans, especially in the case of shipwrecked mariners.

Deep sea coral in numerous beautiful forms is included in the collection. Coral that grows to a considerable height, a stalk bearing long, feathery leaves of enduring material, colored in various hues.

In one jar is to be seen a most peculiar sight. A small star fish is in the middle, surrounded by dainty sticks of coral, sticks that seem more like delicate stone flowers strung on a slender rod. The star fish has its arms wrapped many times around bunches of these pretty stalks. The net brought him to the surface in this position and so he will remain as long as science has use for him as a specimen.

From a depth of 733 fathoms the net brought up a magnificent piece of glass
